

CIP-3

Applications:

CIP-3 allows you to view two video signals on your TV screen at the same time from two external sources, such as VCRs, DVD players, camcorders...etc. A built-in 181-channel TV tuner allows you to view two favorite video programs on your TV screen at the same time or monitor video from a camera while viewing a video program.

Features:

- 1.Real time high-resolution picture in picture display for TV and two video inputs.
- 2.4 PIP sizes selectable for the sub-picture.
- 3.PIP channel may be placed in 9 different positions of the screen.
- 4.Still for PIP.
- 5.Main and PIP channel can be swapped by simply pressing a button.
- 6.Stereo sound on both main channel (TV mono) and PIP channel.
- 7.Ear-phone audio out for PIP channel.
- 8.Built-in TV/CATV tuner for selecting any of the air or cable channels.
