

## PV -Serial Portable MPEG-4 Video Recorder

- Video player/ recorder (MPEG-4)
- MP3 player
- Photo wallet
- Digital Voice Recorder
- Data storage center
- Built-in 40/80 GB Hard Drive
- 3.5" LCD backlight panel
- Real One player
- Rechargeable & removable battery

***Immediate access to all your favorite entertainment – anytime and anywhere***

PV-Serial is the first one and the only one portable video player in the world that implements Real One player. This improvement enhances PV operational interface to be user-friendly and attractive.

### Personal Video Recorder/Player

Simply record from any audio, video resources such as TV, DVD/VCD player, or VCR and convert them in real-time into high-quality MPEG-4 videos. With its built-in 80GB HDD, it is

able to record up to 160-hour videos. Videos can be watched from its built-in 3.5" LCD backlight screen or output to TV.

### Photo Wallet

Store over 400,000 digital photos (1,600x1,200 pixels) and show them to your family and friends either on its built-in screen or TV. You can transfer photos from digital cameras, PCs, to PV instantly via USB2.0 port. Supported functions include zoom in, zoom out, thumbnail, and auto slideshows.

### MP3 Music Player

Transfer your entire MP3 files via USB2.0 cable to PV. Capacity of holding is up to 1,480 hours (24,000 songs) MP3 music. You can enjoy the non-stop music without hearing the same song twice.

### USB Hard Drive

The device is automatically mounted as an additional Hard Drive to your PC. You can drag and drop your data and bring it with you anywhere. It can store any files and serve as a great massive backup device.
