

Smart! Affordable! Profitable!

Meicheng Technology is now presenting the state of art auto-duplicator - " AUTO COPY MACHINE ". We guarantee you the best quality and the most advanced features.

Best Value Leader

The AUTO COPY MACHINE is a stand-alone unattended duplicator that requires no computer connection during operation. It consists of a robotic mechanism that can automatically move discs from an input hopper to recorder, then to output hopper after recording is finished. With single-master duplication mode, it can hold up to 100 disc. If any disc does not pass, the robotic arm will pick it up and drop it to reject area. Low cost, high performance, the AUTO COPY MACHINE is the best choice to fulfill your duplication requirements.
