

TG-10B Digital Audio Player

www.meicheng.com.tw

INTRODUCTION:

Meicheng TG-10B Digital Audio Player is a sounder repeater for visitors to be free and independent visiting a cultural site, theme parks, Science Centers, leisure park, zoos, museums, school orientation, dorm guide, library, open house events, student tours, trade show and exhibition.

No worry about insufficient tour guides anymore! TG-10B serves as a well trained and multi-language speaking tour guide for tourists around the world. By pressing user-friendly buttons, visitors just approach the TG-10B and a predetermined message will start automatically. The TG-10B button keypad allows digital audio message switching at will. The TG-10B is very cost effective, reliable and ideal for fixed listening spots where audio information is needed.

Creating a pleasant audio tour experience for all your patrons! With a sound dome directional speaker mounted specific areas, an individual will hear crystal clear stereo, yet remain undisturbed by the neighboring sound information for they can move around the site freely. TG-10B creates a visit freely, original, and truly unique multiple messages environment for the visitor.
